

Grape Packing Season Is Around The Corner.

We are the proud distributors of **Spotzero** Bio-Degradable chemicals for the food Industry. Our products is environmentally friendly and totally food safe and **QAC, BAC & DDAC free**. On our **Spotzero** side, together with supplying the chemicals, we offer free training to all cleaning staff together with certificates. We do month audits while packing is in progress to see that everything is in order, that chemicals are stored and used correctly and make double sure that our customers are happy. We also do swabs for testing at a minimal cost for all our customers, and then give a complete testing analysis, this is done one request of our customer. We supply all our customers the Material Safety data sheets on all our products being used, to prove that our chemicals are ISO & SABS approved.

We as a company also supply the full, top of the range HACCP and cleaning equipment together with Mop caps, disposable aprons, metal detecting plasters etc...

Be assured to us at Nimba, our Customers, Products and Reputation comes first!
